

Nunavut Water Board
P.O. Box 119
Gjoa Haven, Nunavut X0B 1J0

Dear Jim:

The Hamlet of Cape Dorset is seeking permission to decant the four (4) existing sewage lagoon cells in Cape Dorset. We wish to do so in order to increase the storage capacity of the cells during the winter months. We plan to start the decanting process during the first week of October 2007.

Yours Sincerely,

Art Stewart
Senior Administrative Officer

cc: Mike Hayward – Director of Municipal Works
Bahabesh Roy – Senior Municipal Planning Engineer CGS
Timoon Toonoo – Regional Superintendent CGS
Andrew Keim - INAC
