Subject: Acknowledge Receipt of Operation and Maintenance Manual, Sewage Treatment System (F,1) and Thermistor Data (H,6 & H,7), Hamlet of Cape Dorset Licence 3BM-CAP0810.

Dear Mr. Roy,

The Nunavut Water Board (NWB) acknowledges receipt of two documents submitted on September 11, 2009. The first is a revised Operation and Maintenance Manual for the Cape Dorset Sewage Treatment System dated September 3, 2009, which is intended to satisfy Part F, Item 1 of the Licence. It has been submitted in response to the NWB's letter of June 26, 2009, which found the previous version to be unacceptable.

The second document provides thermistor information from the new lagoon and is intended to satisfy Part H, Items 6 and 7 of the Licence.

Both documents have been uploaded to the ftp site and are available at the following links:

The NWB gives interested persons thirty (30) days to review the submissions and make representations to the NWB. All representations shall be submitted to the NWB by mail, fax or email before November 8, 2009 at 5:00 pm Mountain Standard Time. At the end of the review period the NWB will review all submissions and you will be contacted should concerns arise or should additional information be needed.

Please contact the undersigned at (867) 360-6338 or email at licensingadmin@nunavutwaterboard.org if you have any questions.

Sincerely,
