Nunavut Water Board P.O. Box 119 Gjoa Haven, NU X0B 1L0

Attention: Richard Dwyer, Manager of Licensing

RE: 3BM-CHE1523 Renewal and Amendment Application

Dear Richard,

The Municipality of Chesterfield Inlet is pleased to submit the renewal and amendment application for 3BM-CHE1523 water license. The licensee is requesting a 10-year term. The 23,000 m³ allowable annual limit of withdrawal from Puiqsuk Lake is expected to support the municipality given the current rate of consumption and anticipated population growth.

This submission includes the following documents

- The letter of authorization from the Hamlet of Chesterfield Inlet
- The renewal application
- The application summary in Inuktitut and English
- The NPC Conformity Determination letter
- The 2022 compliance plan
- The updated Quality Assurance and Quality Control Plan, Environmental Emergency Spill Contingency Plan, Water Supply OM Plan, Sewage Disposal Facility OM Plan, and Solid Waste Facility OM Plan

Thank you for your consideration. Please do not hesitate to contact me with any questions or concerns.

Regards,

Kayla Clouter, CET
