Sub: Municipality of Clyde River Water licence # 3BM-CLY1419; Type B: Amendment and Renewal

Hi Richard.

I am writing to confirm that the Municipality of Clyde River Water licence # 3-BM-CLY 1419 Type B will be expired on July 24, 2019.

Following the new application procedure, we submitted the project proposal first to Nunavut Planning Commission. We received a notification from NPC dated April 26, 2019 that the project proposal for the amendment and renewal of the Municipality of Clyde River water licence application is exempt from both NPC and NIRB. Therefore, I am submitting the following documents to Nunavut Water Board for consideration and recommend renewing the Water licence for 10 yrs. effecting from July 25, 2019.

- 1. Amendment and Renewal Application for the Municipality of Clyde River Water Licence # 3BM-CLY 1419, Type B.
- 2. A Authorization Letter issued by the Municipality of Clyde River
- 3. A Plan of Compliance
- 4. Executive summary of the Project Proposal in English
- 5. Executive summary of Project proposal in Inuktitut
- 6. A Stand-alone hazardous waste segregation, storage and transportation
- NPC's letter dated April 26, 2019.

Please contact me if you have any question or concern.
