**Subject:** RE: 3BM-CLY0909 Plan for Compliance

Richard,

Thank you for your request for an update on the Clyde River Plan of Compliance for their water licence. We are working towards submitting our licence requests and updates in a complete and timely fashion and have improved in this area over the past year, but we realize that we still have opportunities for improvement. The O&M manual is complete in draft form; it is not the final as-built due to unexpected complications with the old sewage lagoon.

Our update will include the draft O&M manual, an updated plan of compliance, 2010 annual water report, lab results for the waste water and sludge tests, along with Trow's progress report. I hope these are to your satisfaction; we are in the final stages of completing this package. We will send the hard copy air freight and in should be in Gjoa Haven before Friday January 28<sup>th</sup>.

If you have any concerns or questions please do not hesitate to contact me.

Thank you,

Bill

**Subject:** 3BM-CLY0909 Plan for Compliance

Good morning Bill,

The plan for compliance for water licence 3BM-CLY0909 was not approved and a revised plan for compliance is requested, I've attached some correspondence from the Nunavut Water Board for your reference, requesting a revised plan for compliance. I'd like to request an update on its submission.

Thanks,
