Dear Richard,

In its response to CIRNAC's recommendation on solid waste management plan, the licensee stated "*The Solid waste management facility of Clyde River is a non-engineered facility and the submitted O&M manual is a template and could be applicable for the current facility until a new site is developed and the updated manual is available.*" CIRNAC notes that no O&M manual could be found among the submitted documents and requests that an O&M manual be submitted for review.

If there is any question, please contact me at (867) 975-4555 or david.zhong@canada.ca.

Regards,

David.

Subject: 3BM-CLY1419 Renewal Application Hamlet of Clyde River renewal Application

Good morning,

The Nunavut Water Board requests CIRNA reply by August 1, 2019 whether or not the applicant response, attached, addresses CIRNA concerns.

Regards,

Richard
