DATE February 4, 1992

SUBJECT
OBJET

**FINAL DRAFT ENGINEERING REPORT WASTE DISPOSAL PROJECTS
CLYDE RIVER AND BROUGHTON ISLAND, N.W.T.**

This has reference to your memos dated February 3, 1992.

1. Are you requesting further time for review? If so, please identify when we can expect your comments by. Please note that we allow for 3 weeks for review by TAC so that we and TAC can review the report, provide recommendations to the Board and respond back to the client within a reasonable amount of time.
2. You will be notified of any TAC meetings scheduled regarding this or any other operations within your District. Your attendance at these meetings is welcome, however considering these days of financial restrictions, I will understand if you or your staff will not be able to attend all TAC meetings. If a District representative is unable to attend, we are willing to incorporate your comments into a Divisional position, if received prior to a TAC meeting. It is standard practice that the District is copied on all final TAC minutes.
3. When proposals from unlicensed communities are submitted for comment we will distribute these proposals to TAC for comment, and provide the comments to the Board for their consideration.

Further clarification may be obtained from the Roles and Responsibilities Water Resources document dated September 9, 1991.

I hope this answers your questions. If you have any other questions please do not hesitate to call me or Yvette at (403) 920-8247.
