**Re: Coral Harbour Water Licence Amendment
Sewage and Solid Waste Disposal Site Upgrades**

Dear Mr. Wall,

On behalf of the Department of Community Government and Transportation (Iqaluit) and the Hamlet of Coral Harbour, please find enclosed the application packages for the above mentioned amendment. The package includes three (3) copies each of the following:

- Water Licence Application (Short Form)
- Municipal Questionnaire for Water Licence Application, with Appendix A (referenced reports).
- Engineered Drawings CH-3 through to CH-7 (in map tube included)

As this amendment submission deals only with the sewage and solid waste upgrades, the questionnaire enclosed addresses only the sections pertaining to the proposed upgrades of these sites. This submission is intended to compliment the original water licence application submitted by Ferguson Simek Clark on behalf of the Hamlet.

If you have any questions or comments, please do not hesitate to contact Mr. Jean Corbeil at (867) 645-8114 or the undersigned at (867) 920- 4555.

It is always a pleasure working with you.

Yours sincerely,
DILLON CONSULTING LIMITED
