

Nunavut Water Board
P.O. Box 119
Gjoa Haven, NU X0B 1L0

Dear Richard,

The Hamlet of Coral Harbour is pleased to submit the renewal application for 3BMCOR-1521 water license. The licensee is requesting a 10-year term. The 45,000 m³ allowable annual limit of withdrawal from Post River is expected to support the municipality given the current rate of consumption and population growth.

This submission includes:

- Letter of authorization and application fee proof-of-payment from the municipality of Coral Harbour
- Renewal application
- Application summary in Inuktitut and English
- NPC Conformity Determination letter
- 2021 compliance plan
- 2016 annual report
- As-built drawings for the water treatment plant commissioned in 2016

In an effort to maintain compliance and for the conditions in the new licence to reflect the realities in Coral Harbour, the Licensee is requesting modifications to the following Licence conditions:

- B-1-c
- B-1-d
- B-13

- F-3
- F-5
- F-6

Justifications for each of these requests are outlined in the compliance plan.

Thank you for your consideration. Please do not hesitate to contact myself or Sarah Collins with any questions or concerns.

Regards,
