Dear Dionne:

Re: Hamlet of Coral Harbour - Infilling of Lake

Further to your request of February 11, 1999, the Water Resources Division and the Nunavut District Office have reviewed the above mentioned application and have the following comments.

Eastern Side of Lake

As this is a continuation of work that has already been approved, there are no concerns with the proposed project. Please ensure that standard clauses are used when issuing the Licence.

Northwest Side of Lake

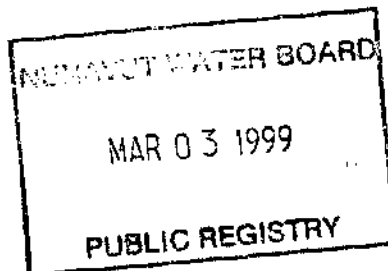

It may not be appropriate to cover this area with blast rock prior to testing, particularly if it is to be developed for residential purposes. As it was the Department that funded the clean-up project in the past, Mr. Scott Mitchell, Head of Contaminated Sites may be able to provide more information on this. Mr. Mitchell can be reached at (867)669-2755.

If you would like to discuss anything further, please feel free to contact me at (867)669-2658 or Mr. Paul Smith of the Nunavut District Office at (867)979-4407.

Sincerely,

Shannon Pagotto
Regional Coordinator
Water Resources Division
