**RE: Hamlet of Coral Harbour – Amendment Renewal – Type “B”**

Attention: Brady MacCarl

Environment Canada (EC) has reviewed the Amendment Renewal Application for the abovementioned application (License 3BM-COR0813), submitted by the Hamlet of Coral Harbor (the Proponent), in response to NWB's electronic mail request dated March 6, 2015; and NWB's correspondence, dated February 1, 2015. EC has the following comments on the Application:

1. EC does not have concerns with amending the Licence to remove the bioassay requirement for the compliance point at the end of the wetlands. However, EC strongly encourages compliance with the monitoring provisions of the Licence.
2. The Proponent is still required to comply with its obligations under legislation, including the *Canadian Environmental Protection Act, 1999*, the pollution prevention provisions of the *Fisheries Act*, the *Migratory Birds Convention Act, 1994*, and the *Species at Risk Act*.

For further clarification on any aspect of this submission, please contact Michael I. Mohammed at (867)-975-4981 or [michael.mohammed@ec.gc.ca](mailto:michael.mohammed@ec.gc.ca).

Sincerely,

Michael I. Mohammed  
Senior Environmental Assessment Coordinator
