Re: Aviation Fuel Barrels
503-SK-074

When the Hamlet Council requested the cleanup of 503-SK-074, Peter Akkikungnaq, owner of A.P.M. Construction Ltd., informed us that DeBeers is the owner of the aviation fuel located on 503-SK-074, next to the A.P.M. Construction Ltd. trailers.

Would you please confirm if DeBeers is the owner of the aviation fuel, if so the Hamlet Council of Gjoa Haven would like to know what DeBeers intends to do with the aviation fuel. There are empty barrels in ditches, in water and it is unattractive and a health hazard to the public of Gjoa Haven.

The Hamlet Council would like to have the fuel barrels removed and the fuel spills cleaned.

Please contact me if you have need of further information.

Regards,

Richard Dwyer
