Re: Application Acknowledgement and Additional Information Required for the Government of Nunavut – Community and Government Services’ “New Sewage Lagoon” Project Proposal

Dear Mr. Rostant:

On July 10, 2013 the Nunavut Impact Review Board (NIRB or Board) received the Government of Nunavut – Community and Government Services’ (GN-CGS) “New Sewage Lagoon” project proposal from GN-CGS. The NIRB has assigned this project proposal file number **13UN032**.

All documents received and pertaining to this project proposal include:

- *NIRB Part 1 Summary Application Form in English, Inuktitut and Inuinnaqtun;*
- *Design Development Draft Report;*
- *Non-technical Project Proposal summary in English, Inuktitut and Inuinnaqtun; and*
- *Figure 1- General Site Plan.*

The NIRB has undertaken a preliminary completeness check and finds that your project proposal does **not** contain sufficient information for the NIRB to permit proper screening. Specifically, the NIRB is requesting submission of a completed *NIRB Part 2 Project Specific Information Form* in English by **August 1, 2013**, with particular attention paid to the following points:

- *Confirmation of construction activities that have taken place to date;*
- *Clarification that Figure 1- General Site Plan Map is the location and number of sewage lagoon cells proposed for construction;*
- *Confirmation of the proposed design of the new sewage lagoon including but not limited to the following elements:*
 - *type of lagoon (i.e., storage lagoon, short or long-detention);*

- *location of sewage lagoon effluent discharge point (i.e., effluent discharged into existing wetland area or new wetland area);*
- *sewage lagoon infrastructure (e.g., access roads, berms, liner, decant structure, etc.); and*
- *confirmed capacity of new sewage lagoon;*
- *Type of waste anticipated to be generated from construction of the new sewage lagoon and decommissioning of the existing sewage lagoon and waste management plan;*
- *Confirmation of decommissioning process for existing lagoon; and*
- *Public consultation meeting summaries.*

If GN-CGS determines that the time needed to supply the required information is significantly greater than 2 weeks, the Board requests that written notification and an anticipated date for submission be supplied prior to the August 1, 2013 deadline.

Please forward all forthcoming submissions to the NIRB at info@nirb.ca or via fax at **(867) 983-2594**.

If you have any questions or require clarification on the outstanding information required to support the NIRB's screening, please contact me directly at (867) 983-4607 or crodriguez@nirb.ca.

Sincerely,

Catherine Braun Rodriguez
