Dear Sir or Madame;

RE: SPILL NUMBER 99-100

I am writing this letter to confirm that we will not be held liable for the JETA-AIRCRAFT fuel spill that occurred on August 12, of 1999 at the Tank Farm.

The construction firm of APM in Gjoa Haven was requested to haul the contaminated soil to our dump-site without our prior consent or knowledge.

The Spill report has not been finalized to date as the Renewable Resources Officer is not sure if the clean-up has been completed correctly.

We refuse to be held responsible for this clean-up and would like you to be aware of that fact.

Please see the attached documentation for your records.

Sincerely,

Michael Angotittauruq, Sr.
 Mayor
