August 20/1999

Government of Nunavut
 Petroleum Products Division
 Cambridge Bay, NU.
 XOE-1JO

Dear Sir/Madam;

The Hamlet of Gjoa Haven recently was granted a Water Licence from the Nunavut Water Board. Under the Terms and Conditions of the Licence the Hamlet is required to provide a detailed report to the Nunavut Water Board of any/all spillages of chemicals, fuels and other hazardous goods within the municipal boundaries.

Last week there was a significant spill (approx. 4000 liters) at the local tank farm. We will require a detailed report on this incident at your earliest convenience. In particular the cause of the spill, the area the spill, any involvement Petroleum Products personnel in the containment, clean up and disposal of contaminated soil from the spill.

Thank you for your co-operation

E. Rudolph
