Good morning,

Thanks for the confirmation Stuart,

I can provide an acknowledgment and confirmation that your date for submission has been extended till October 7th, 2014.

A copy of the amended Inspector's Direction will be issued before the submission date for your files.

Morning Andrew,

I had hoped to get something to you last week however our consultant was out of office for that week and it was important that he was involved. We do plan to follow the course of action we discussed however the only change is that we do not anticipate that these works will be done this year due to weather.

The intent of re-issuing the A&R plan is to incorporate everything we discussed as well as include AANDC's comments on the original A&R plan. I can have our consultant provide an overview of the intended A&R works planned for 2015 which is based on our discussion and comments received.

Stuart.

Subject: Re: Gjoa Haven Sewage Lagoon - Update
Importance: High

Good morning all,

Thank you for your up-date. I had expected to get something from you last week following the conference call. I assume the Government of Nunavut still plans to follow the course of action we initially discussed.

If however there is any change to what was discussed during that meeting I would ask and that you provide me an update on what you are intending to propose.

Once I have that information I would be willing to entertain your request for an extension to the Direction.

Please note that the deadline set in the Direction is today.

Andrew Keim

Hi Andrew,

Attached is an update on the Gjoa Haven Sewage Lagoon. Please review and provide any comments. We are currently putting together a response to an outstanding question in your August 26th letter. Contrary to the attachment, it does not seem as though we will be able to meet the October 1st deadline for this response and ask that you allow us to extend to the 7th October.

Stuart
