Dec 5th:

Jerry from the Hamlet called. They got a bill from Tiaga Env.Laboratories for \$452 for the water testing done on September 13th. He was surprised to see a bill for this and was wondering if they were supposed to be paying for this service. I told him that the sampling costs are usually the responsibility of the licensee, but told him that Dionne would call him back on Thursday or Friday to confirm/explain this.

Dec. 6th

Louis called asking if I knew what a French drain was. He's wondering if there is a mistake in the manual that he's reading with regards to sewage lagoons and perhaps this has something to do with "trench" rather than "French." Could you call him back Dionne if you know anything about this.
