RE: Proposal for Marine Development, Grise Fiord

Dear Don,

IMG-Golder Corporation is pleased to submit the attached *Proposal for Marine Development, Grise Fiord* for your consideration. IMG-Golder Corporation is an Inuvialuit environmental consulting company based in Inuvik, and is jointly owned by the Aboriginal owners of IMG Services Limited and Golder Associates Limited. Drawing on the skills of this partnership, IMG-Golder is uniquely positioned to offer a broad range of northern environmental services to its private and public sector clients,. As you will see in the proposal, IMG-Golder has qualified and experienced staff based in Inuvik to execute projects. In addition, Golder Associates Ltd. is committed to supplying additional professional support to IMG-Golder, so that client's needs are efficiently met.

In 2002, Golder successfully carried out the fisheries assessment for a proposed marine facility in Kugluktuk within budget and time constraints. The success of that project was in the unique and meaningful way that we worked with community members to integrate scientific data with Inuit Qaujimajatuqangit. For Grise Fiord, we propose to use this winning combination once again.

Should you have any questions concerning our proposal, please contact us.

Yours sincerely,

IMG-Golder Corporation

Jim O'Neil, Project Director

Dr. Julia Krizan, Project Manager
