### **Municipality of Grise Fiord Water Licence #3BM-GRI2025 Amendment and Renewal**

Dear Richard,

The Government of Nunavut Department of Transportation and Infrastructure Nunavut on behalf of the Municipality of Arctic Bay is requesting to amend and renew 3BM-GRI2025. Under this application, the construction and operation of a new water supply facility is proposed, as well as the continued operation of the existing water supply facility until the new facility is commissioned, and the continued operation of the solid waste facility and sewage disposal facility.

The projects were submitted to the Nunavut Planning Commission (NPC) and conformity determinations were issued on October 31, 2023 and February 27, 2024. Both projects were forwarded by the NPC to the Nunavut Impact Review Board (NIRB) for screening. The NIRB screening process remains ongoing, and the screening decision reports will be provided to the NWB once available.

This renewal and amendment submission includes the following documents that can be found at:  
<https://app.ca.e-builder.net/public/publicLanding.aspx?QS=2cc6387a8df14cf3a92f19ef4d3b231e>

- Water Licence Amendment and Renewal Application
- Authorization Letter
- NPC 149228 Renewal and Amendment of Water Licence 3BM-GRI1520
- NPC 150165 New Water Treatment Plant Water Licence 3BM-GRI2025

- NPC 150230 Solid Waste Facility and Renewal Water Licence 3BM-GRI2025
- Application Summary in English and Inuktitut
- 2025 Plan for Compliance 3BM-GRI2025
- Amendment Justification Letter 3BM-GRI2025
- Grise Fiord Water Treatment Plant Schematic Design Report
- Grise Fiord Water Supply Facility Issued for Construction Detailed Design Drawings
- 3BM-GRI2025 Annual Reports 2020 to 2024
- Operations and Maintenance Plan for Municipal Water Licence: Solid Waste Disposal Facilities
- Operations and Maintenance Plan for Municipal Water Licence: Sewage Disposal Facilities
- Operations and Maintenance Plan for Municipal Water Licence: Water Supply Facilities

The submitted Plans are proposed to be effective and implemented immediately as part of ongoing operations of existing facilities, following approval from the Board.
