GRISE FIORD
TAC

Grise Fiord Sewage Lagoon

Re: Your Memo dated September 8, 1995.

Ref: - Letter from G. Craig, UMA Engineering Ltd. to myself dated August 16, 1995.
- Letter from myself to G. Craig, UMA Engineering Ltd. dated September 1, 1995.
- Fax from G. Craig, UMA Engineering Ltd. dated September 1, 1995.

1. Please find attached the above noted letters and fax which detail the correspondence between this office and UMA Engineering Ltd. regarding the improvements to the Grise Fiord sewage lagoon.
2. As far as this office is concerned, our questions have been addressed and work can proceed as planned.
3. Please note within Mr. Craig's letter of August 16, 1995, that work was to begin this season. I question the value of requesting comments at this late date. The basic plans had already been approved by the NWT Water Board on January 28, 1994.

Paul Smith
Water Resources Officer
