**Re: Notification of Construction/Repair activities within 3BM-GRI-2025**

Dear Mr Dwyer,

Please find attached IFC (issued for construction) drawings for your consideration for work to be completed on the water tanks #1 and #3, with completion estimated end of August 2022., licensed under 3BM-GRI-2025.

As this modification is consistent with terms of the licence, please take this letter and ICF drawings as notification, under part F, section 2 of the licence. The following major work items are included in the IFC drawings attached with this e-mail.

**Grise Fiord Water Tank #1:**

1. Reinstating tank #1 back in service to assure sufficient volumes of potable and fire water supply is available to the Municipality during winter months. Tank's holding capacity is 1500 m3.
2. Repairing tank #3 foundation pad and steel floor to provide raw water storage for the volume of 2500 m3

Regards,

*Flomwe*
