Dear Mr. Crossley:

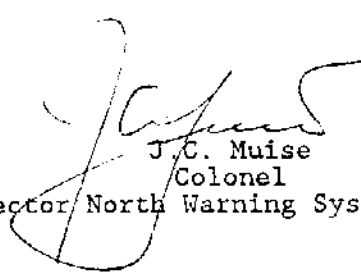

WATER LAKE AT HALL BEACH RADAR STATION

As a follow up to our 23 November 1993 letter, you will find enclosed for your information a copy of the engineering report prepared by our operations and maintenance contractor, Frontec Logistics. We are also arranging for a geotechnical survey of the berm which will help us determine the best long term solution.

As this is a problem that affects both the radar site and even more so the hamlet of Hall Beach, we feel it reasonable that the cost to effect the repairs to the lake should be shared between our department and GNWT.

I welcome your comments on the report and invite you to contact Major Richard Allie at (613)996-4093 to arrange for a meeting at a suitable time and place for all parties.
