DR. ANDRÉ CORRIVEAU
MEDICAL HEALTH OFFICER (WEST)

DR. RICHARD BARGEN
MEDICAL HEALTH OFFICER (EAST)

North Warning Sewage

*Hall Beach
1532-Cambridge Bay
Nunavut Dist*

Captain Z. Szabo and Mr. Jim Boissonneault, of National Defence, stopped by my office today to talk about sewage disposal at the North Warning Sites. They indicated that they had come from a meeting with DIAND, where they had thought we would be present, but I did not know of the meeting.

The major interest of Capt. Szabo and Mr. Boissonneault is in new sewage treatment plants for Cambridge Bay and Hall Beach, but they will be in touch with both Regions about the various overall sites. They provided me with the attached material on the new plants proposed, and offered to make presentations on the technology if we (or the Water Board) should be interested.

There was an indication that the Hall Beach plan will have difficulty meeting the GNWT's set-back Regulations, so Dr. Borgen may want to look at whether that presents a problem, although it seems unlikely to.

I provided your addresses to both these gentlemen.

F. Ian Gilchrist
Chief Medical Health Officer
