N.W.T. SPILL REPORT

Rpt. GAC. Information (Chemicals or other materials)

24-Hour Report Line

24-Hour Report Line: 1-800-661-AD-88 (103) 920-8130

Phone: 1-800-661-AD-88 (103) 920-8130

Fax: 1-800-661-AD-88 (103) 879-6924

11/11/02

A Report date and time JUL 26 / 2002 3:45 pm		B Date and time of spill (if known) JULY 21, 2002 (suspected)		C Original report Update no. 01-432	
D Location and map coordinates (if known) and direction (if moving) NWS Radar Station Hall Beach, Nunavut (Box-11)					
E Party responsible for spill Nasitug Corporation					
F Product(s) spilled and estimated quantities (provide metric volumes/weights if possible) suspected Jet A1 fuel, estimated volume					
G Cause of spill suspected leak in underground POL line					
H Is spill terminated? ☒ yes ☐ no		I If spill is continuing, give estimated rate N/A		J Is further spillage possible? ☐ yes ☒ no	
L Factors affecting spill or recovery (weather conditions, terrain, snow cover, etc.) underground POL line		K Extent of contamination (area in square metres if possible) not known			
M Containment (physical depression, dykes, etc.) not known					
N Action, if any, taken or proposed to contain, recover, clean up or dispose of product(s) and contaminated resources the POL pipeline is not being used, now (piping between tanks was discontinued)					
O Do you require assistance? ☒ no ☐ yes, describe:		P Possible hazards to persons, property, or environment (e.g. fire, drinking water, etc.) not at this time			
Q Comments and/or recommendations (provide details of spill response) Two contractors (Enviroserve & Mosher) have been contacted with regards to performing a hydrostatic pressure test on the underground POL line. Both contractors have experience working at the N.W.S. radar stations. Both are available on August 1st and 2nd. Just as a program. Nasitug Corp. will be sending two Environmental Specialists to Hall Beach on August 5, 2002 to perform an on site investigation of the suspected spill area.
