Thanks Sarah

I believe I have now sent you everything I have on this file. If you require clarification of anything, please contact me.

Regards

Ron

Hi Ron,  
I'm pretty sure the sludge sample result 03-210 in table 1 of Appendix B is the sludge sample result I'm looking for. It would be nice to have the analytical certificate for the file, but that shouldn't hold up processing this file.

Regards,  
Sarah

Sarah

Please find attached the letter from the Hamlet, stamped drawings and Tables 1-3, the latter which were inadvertently left out of the Trow report.

We do not have the CGS sludge sample result. If it is important I will request CGS to provide it to you.

Regards

Ron

Hi Ron,  
The Trow report does not include the sludge sample result that was coordinated and obtained by CGS prior to Trow doing the field work for the decommissioning report. The only analytical certificates of analysis are for the soil and water samples collected by Trow. In Appendix B, the Analytical Summary Tables, there are only tables 4-6, maybe there are some pages missing? Tables 1-3?

The specs you sent were not stamped and there were no drawings. Please send stamped drawings and specs.

Regards,  
Sarah

Hi Sarah

Please find the answers to your questions.

Authorization - I understand the GN will be submitting this to you.

Sludge samples - please find attached the Trow report that contains all the sample results and interpretation.

The specs will follow in a separate email.

Regards

Ron

Hi Ron,

Please find the attached request for more information for the AR of the Hall Beach Sewage lagoon.
