Subject: RE: Questions regarding 3BM-KIM0207 Renewal Application

Hi Phyllis,

I have an operational plan of the Sewage Lagoon prepared by Trow associates Inc. and wetland model by Earth Tech (Ken Johnson).

Presently We are designing the project. If you want, I can send you those documents to support the application.

I only know that Ken Johnson and Steven Burden joined with me to visit Kimmirut and presented the preliminary documents to the Council meeting.

I am not aware about Mr. Robert Kadlec's visit with Ken Johnson to Kimmirut.

Please let me know your decision.

Thanks

Bhabesh

Subject: Questions regarding 3BM-KIM0207 Renewal Application

In order to review the Water Licence Renewal Application by the GN-CGS on behalf of the Hamlet of Kimmirut it would be preferred if further information on the planned upgrades were made available for review. The only document INAC has received pertaining to the upgrades is the location plan of the Kimmirut waste facilities by Trow Associates Inc.

INAC is aware that site visits were undertaken by Mr. Robert Kadlec and Mr. Ken Johnson. Would it be possible for INAC to receive documents/results from those site visits in order to adequately evaluate the renewal application?

Sincerely,

Froeydis
