Good morning,

I was hoping to reply to this email earlier. The Cap and KIM files were reviewed by Karlette with a draft letter for each. These were confirmed to be good to send out prior to the NMS, however waited for discussion with the AANDC enforcement folk. As well, Justin has been sending out these compliance notices, which need to be review now prior to sending the letters to ensure consistency. So these file renewals should be held for now until aandc gives the go ahead for processing. Same holds for TAL now and Cory's SAN, which he just sent me a revised draft on Tues to review.

Hope this helps out some on where these files are at.. like to get out asap, but working through MRY right now for the teleon this afternoon. Soon?

Regards,
Dave

Hi Megan

I have two Municipal files,

3BM-KUG0914, that one the PTR is complete and waiting for David answer about what to do

and the 3BM-CAP0810 that I have to review the file, no sure it is ready for Board Memo and Licence. I have been busy working on other files.

3BM-KIM0911 I dont have in my records as mine. Phyllis/David, please confirm because this file is not mentioned in the last application data base spread sheet sent by Phyllis.

Hi Sonia,

At our last licensing/tech meeting the above mentioned files were re-assigned to you. Both were ready for board, but no board memo and draft licence was prepared by previous tech.

Both have gone out for comments and deadlines have passed, both are ready to be sent to the board for approval.

Thanks,
