Water Licence Inspection-May 25,1998

In reply to your letter of May 29,1998, outlining your inspection of May 25,1998 and noting matters to be acted upon to comply with the terms and conditions of the licence, the following has been done:

1. The 1997 Annual Report has been sent July 23, 1998.
2. A station to collect samples has been stated out so that the samples shall be taken from the same location each month. And an SNP sign has been place at the site.
3. July 23, 1993 a letter was sent to the Nunavut Water Board both advising on the progression of the sewage disposal site and requesting the Operation and Maintenance guidelines.
4. The June sample was not collected due to the proper container could not be purchase in the community in time to submit the June sample. As of the 28th the July sample will be shipped from Kimmirut to Yellowknife for testing and there after each month.

A handwritten signature in black ink, appearing to read "Ken Stewart".
