Subject: Annual Report Requirement NWB3KIM0207

Dear Mr. Marshall:

The Nunavut Water Board (NWB) has reviewed the “Annual Report for the Hamlet of Kimmirut (2002)” documents submitted to the Board on March 3, 2003 in accordance with Part B, Item 1 of your water licence. The NWB herein approves the 2002/03 Annual Report as presented and thanks the Hamlet of Kimmirut for their submission.

It was noted in the review of the Annual Report submitted that the Hamlet does not currently have a Monitoring Plan in place for their solid waste and wastewater management facilities. The NWB reminds the Licensee that, in accordance with Part H, Item 2 of water license NWB3KIM0207, the Hamlet of Kimmirut is required to sample monthly at Monitoring Stations KIM-2 and KIM-3 during the months of May to August, inclusive. The NWB, however, is aware of the challenges associated with developing, and implementing, such a sampling program. Accordingly, staff of the NWB will be contacting you within the next several weeks, to determine if we can assist you in developing, and implementing a Monitoring Plan, as is required by your water license. The NWB looks forward to reviewing your 2003 Annual Report, and herein requests that you submit this Report to the Board at your earliest convenience.

Please contact the undersigned at (867) 360-6338 or e-mail Jim Wall (Technical Advisor, Municipal) at tech1@nwb.nunavut.ca if you have any questions.

Sincerely,

Original Signed By:

Philippe di Pizzo
Executive Director
