Attachments: 010806NWB3KIM Sewage Information-OEDE.doc

Hi Bhabesh,

In my review of the file for the current license for the Hamlet of Kimmirut while vague it appears that the new lagoon was contemplated in the license issued September 1, 2002, it would stand to reason that an existing facility be considered in the review of the application. The License likely was not issued until the items referred to in the attached letter were actioned.

The current license for Kimmirut: Defines the “***Sewage Disposal Facilities***” *comprises the area and engineered lagoon and decant structures designed to contain sewage, as described in the Application for Water License filed by the Applicant on May 17, 2001;*

If the Licensee or GN on their behalf, submitted and received approval (where applicable) the information required by Part E, Item 1 and Part E, Item 4 then I would suggest you are in compliance with the water license. As you are aware the NWB does not enforce the licenses it issues, this remains the mandate of INAC. I would recommend that you confirm with the INAC Water Resources Officer Andrew Kiem, at keima@inac.gc.ca , INAC prior to proceeding.

Part E, Item 1: The Licensee shall submit to the Board for approval design drawings stamped by a qualified engineer registered in the Nunavut prior to the construction of any dams, dykes or structures intended to contain, withhold, divert or retain water or wastes.

Part E, Item 4: The Licensee shall provide as built plans/drawings of the modifications referred to in this License within ninety (90) days of completion of the modifications.

I would suggest that INAC would require confirmation from GN on compliance with these two parts in needed prior to proceeding.

If you have any questions in this matter please do not hesitate to contact Dave Hohnstein, at 780-443-4406.

Regards,
Dionne

Subject: Kimmirut water License

Hi Dionne,

In our meeting on May 4, we also discussed about the status of the water license of the Hamlet of Kimmirut. The question is whether the new Lagoon built in 2001 are under the existing License and ready to use. Yes or No!!

You told me yes and also promised to confirm by writing us.

I will appreciate if you confirm your decision in a letter as early as Possible.

Thanks.

Bhabesh
