Re: Kugluktuk Marine Resupply Dock Relocation – Permit Approvals

Dear Briscoe,

I've received your office letter dated Nov 29, 02 in regard of permit applications. Your office has requested different agencies to advise the Board about any requirement of any authorization from their part.

Further to this request, I'd like to hand over a copy of approval received from Hamlet of Kugluktuk. Council of the Hamlet of Kugluktuk at a duly assembled meeting had made required amendment to Schedule 1 of Bylaw No 23 and Schedule 21 of Bylaw No. 24 for new re-supply dock site and fuel re-supply lines.

I also received letter from NWB. They advised that permit approval from NWB is not required for this project

We appreciate your office's efforts to address this issue ASAP. If you have any questions or wish additional information, please contact the undersigned at Tel (867) 983-4156, Fax (867) 983-4123, or email: bbrar@gov.nu.ca

Regards,

Baljinder Brar
