SUBJECT  
OBJET

HAMLET OF COPPERMINE - ANNUAL REPORT

For your records attached is the original of the Hamlet of Coppermine's Annual Report for the year 1994. This report was sent in error to our Iqaluit office by mistake and was received there on January 31 of this year, well before the due date specified in the Water Licence.

For all intents and purposes it appears complete as I assume that the blank areas indicate that there was no information to provide in these areas (i.e. no major maintenance nor any details requested by the Board prior to November 1<sup>st</sup> of the year being reported). This summer when an inspection is carried out on the facilities, I will be ensuring that they are aware of the definition for major maintenance and try to ascertain the method of measurement for the wastes discharged. Despite the fact that Licence requires that the units of volume be reported in cubic metres, I have no problem with the use of litres as the unit of measure.

If there are any questions related to this matter please feel free to contact me at any time.

Regards

*Dan Elliott*

1 IQALUIT, N.W.T.**ANNUAL REPORT  
FOR THE HAMLET OF COPPERMINE**

The following information is compiled pursuant to the requirements of Part A; Item 3, of Water Licence N7L4-1526, issued to the Hamlet of Coppermine.

a), b) Monthly and annual quantity, in cubic metres, of water pumped from the Coppermine River and the quantities of waste discharged to the Lagoon Area.

Month being Reported	Quantity of Water pumped from Coppermine River (Cubic Metres)	Quantity of Waste discharged to Lagoon Area (Cubic Metres)
January	2,650,056.6 - litres	3,975,084.3 litres
February	2,205,037.8 - litres	2,756,297.2 litres
March	2,670,347.2 - litres	3,337,934.0 litres
April	2,422,162.3 - litres	3,021,702.9 litres
May	2,364,373.4 - litres	2,955,466.8 litres
June	2,380,864.2 - litres	2,976,080.3 litres
July	2,555,707.6 - litres	3,194,634.5 litres
August	2,701,340.6 - litres	3,376,675.6 litres
September	2,886,321.0 - litres	3,607,901.3 litres
October	2,489,778.0 - litres	3,112,222.5 litres
November	2,530,499.0 - litres	3,163,123.6 litres
December	2,502,904.0 - litres	3,128,630.0 litres
<b>ANNUAL TOTAL</b>	<b>30,359,391.7 - litres</b>	<b>38,611,753.0 litres</b>

Note: 1 Cubic Metre equals 1000 litres

"Please Note:" Above figures are in litres.

Month	Bagged Sewage Quantity
