Hi Megan,

The PTR conducted for the above-mention file indicated that the file is complete to extent that it can be distributed for public review.

It should be noted that the O&M Plan for the existing sewage disposal facility has not been submitted; the proponent indicated that once a new lagoon is constructed, an O&M will be submitted.

We have informed the proponent in the past about the need for an O&M manual for the existing facility; however, the same response above was provided; At this stage we will want distribute the application to determine what intervenes may say on the matter as part of their comments.

Regards,
Sean
