**Subject: Licence No. 3BM-REP0409 / 3BM-REP1520 – Submission of 2014 Annual Report**

---

Dear Mr. Etitiq:

The Nunavut Water Board (NWB or Board) has completed its review of the 2014 Annual Report (Report) and accompanying Monitoring Program sampling results for Licence 3BM-REP0409, submitted by Government of Nunavut, Community and Government Services (GN-CGS), for the Hamlet of Repulse Bay. The Licence 3BM-REP0409 was renewed on April 9, 2015, as Licence 3BM-REP1520.

The review determined that the Report is generally complete and consistent with the reporting requirements under Part B, Item 1 in Licence 3BM-REP0409. The review also noted that the Hamlet plans to begin construction of the new Water Treatment Plant and Sewage Lagoon in summer 2015. Related to this work the existing Water Truck Fill station will be demolished. The Hamlet also plans to decommission its contaminated soil storage area in 2015.

Copies of the above-mentioned Report as well as documents related to the licence are available on the NWB's FTP site, which can be accessed using the following link:

The NWB takes this opportunity to remind the Licensee that, pursuant to Licence 3BM-

REP1520, the following documents will or will likely be due before the prescribed submission date of the 2015 Annual Report, on March 31, 2016:

3. Part F, Item 3: A Long-term Solid Waste Management Plan for the Hamlet of Repulse Bay.
