WATER LICENCE APPLICATION # NWB3PAN

The Government of Nunavut and the Hamlet of Pangnirtung are in the process of installing a new sewage treatment plant. At this point raw sewage is flowing directly into water.

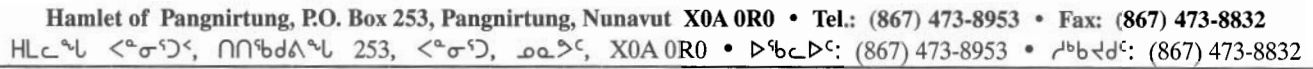

The tender for Request for proposals has already been released. We anticipate that if we are able to get our license renewed that all the supplies for the treatment plant would be shipped on this year's barge for construction next fiscal year.

If you have any other questions and or concerns please do not hesitate to contact me.

Yours truly,

Greg Morash
