### **Requesting outstanding annual reports and application for a Water Licence renewal**

Indian and Northern Affairs Canada (INAC) is responsible for enforcing provisions of the *Northwest Territories Waters Act*, which requires municipal operations have a valid water licence. This licence is issued by the Nunavut Water Board (NWB) under the *Nunavut Land Claims Agreement*, which also requires that municipalities possess a water licence.

The Municipality of Pangnirtung has allowed its water licence N5L4-1447 to expire in the year 2000 without applying for a renewal to the Nunavut Water Board. As such, we are again taking the opportunity to advise you of this outstanding legal requirement to prevent you from remaining in non-compliance with the above legislation. In anticipation of - and in order to assist you in - the application process, please find attached a copy of the necessary application and supplementary questionnaire forms. INAC will be happy to aid you in completing these forms should you require assistance.

Additionally, according to the Water Resources Officer's latest inspection report sent to the Municipality on September 20, 2001, the Municipality has still not submitted its required annual reports for 1998, 1999 and 2000. Please also find attached a copy of a form that, if properly completed, can fulfill the requirements of your annual report. By filling out a copy of the attached form for each of those years, the Municipality can remedy this outstanding issue of non-compliance.

Finally, the Municipality is currently in non-compliance with respect to submitting its operation and maintenance plan of their sewage and solid waste disposal facilities. According to Part C, Item 7 of licence N5L4-1447, this plan was due on July 1, 1991.

If you have any concerns or questions, please feel free to contact me.

Sincerely,

***Original Signed By: Michael Roy***
