Good afternoon Shah,

Thank you for the documents provided earlier this week and today.

To sum up, as discussed on the phone, you informed that the Hamlet of Kugaaruk water storage is equal to a volume in one water truck, so the Hamlet is not requesting annual water storage of 60,000 m3.

In addition, daily water withdrawal rate from the river is ~165 m3 (the requested 60,000 m3 annual withdrawal volume is broken down to 365 days).

Regards,
Assol
