**Subject:** 3BM-PEL 0712 (Hamlet of Kugaruk)-Spill Contingency Plan

Hello Tom:

To clarify, Section 1.9, Spill Contingency Plan, Hamlet of Kugaaruk, stated that there are not existing measures in place to prevent spills. However, in reality, most hamlets do have some form of system in place to prevent or minimize spills. The NWB asks that any previously overlooked measures/proposed measures to reduced and/or minimize spills be included in the plan ( Section 1.9).

If you have further questions about the Plan, please do contact me email/phone/fax.

Regards,

Sean B. Joseph

Hi, Phyllis,

I do not have Sean Joseph's e-mail on my system (travelling), so would you mind forwarding to him the following question? thanks very much!

Sean, I do not understand your question below (#6 I believe for Kugaaruk spill contingency):

"The current plan (section 1.9) mentions no formalized preventative measures are in place. This should be expanded to include all preventative measures in practice. Consideration should be given to formalizing preventative measures;"

Regards,

Tom Livingston
