Strip (AADNC/AANDC)

Hello Richard,

The applicant's responses address Crown-Indigenous Relations and Northern Affairs Canada's comments and we would like to offer the following points:

- Since the applicant has clarified the water source is the same as was used previously (Salmon River/Creek), CIRNAC would not be looking for a hydrology study. Any resources and efforts would be better spent on the landfill.
- Improvements to landfill management are important to protect water. The proposal for a March 2021 plan of incremental advances to better operations at solid waste facility operations is reasonable, and we encourage the applicant to start actions as soon as possible.

Don	't	hesi	itate	to ge	t in	toucl	h if	you	have '	further	questions.

Regards,

Sarah
