

**2017 ANNUAL REPORT
FOR THE HAMLET OF POND INLET, NUNAVUT**

YEAR BEING REPORTED: 2017

The following information is compiled pursuant to the requirements of **Part B, Item 1** of Water License # 3BM-PON1520 issued to the Hamlet of Pond Inlet, Nunavut.

- i) - iii) tabular summaries of all data generated under the “Monitoring Program”; monthly and annual quantities in cubic metres of freshwater obtained from all sources; monthly and annual quantities in cubic metres of each and all wastes discharged;

Attached are quantities of water used as reported in our On Tap Water Delivery System and the estimated discharge of sewage waste based on quantities used.

Month Reported	Quantity of Water Obtained from all sources (litres)	Quantity of Sewage Waste Discharged (Estimated)
January	3,826,659.80	Same
February	3,472,080.70	Same
March	3,949,126.60	Same
April	3,652,396.70	Same
May	4,017,856.70	Same
June	4,471,011.80	Same
July	3,359,237.10	Same
August	3,224,240.50	Same
September	3,055,588.50	Same
October	3,652,041.10	Same
November	3,738,875.40	Same
December	4,055,738.70	Same
Annual Total	44,474,853.60	Same

Note: The average consumption volume is considered equal to the discharge volume in each month because there is no meter at the end of the discharge pipe.

**2017 ANNUAL REPORT
FOR THE HAMLET OF POND INLET, NUNAVUT**

- iv. A summary of modifications and/or major maintenance work carried out on the Water Supply and Waste Disposal Facilities, including all associated structures and facilities;

The WTP got fire in last December just prior to Christmas. The emergency team of CGS had fixed the plant and put into operation. Currently the plant is running good.

-
- v. A list of unauthorized discharges and summary of follow-up action taken;
No.
-

- vi. A summary of any abandonment and restoration work completed during the year and an outline of any work anticipated for the next year;

No. Again no plan for next year.

-
- vii. A summary of any studies requested by the Board that relate to waste disposal, water use or reclamation, and a brief description of any future studies planned;

National Research Council (NRC) has been doing Research the Sewage Lagoon. CGS is working forward on the improvement of the waste management of this Community.

- viii. Any other details on water use or waste disposal requested by the Board by November 1st of the year being reported; and

Current waste management sites are the concerns of the Nunavut Water Board. Batteries are kept in the sea can. Hazardous wastes are segregated for the future disposal out of the Community.

-
- ix. Updates or revisions to the approved Operation and Maintenance Plans.

The existing O&M manuals of the water supply, wastewater treatment and waste management systems are being used until any new facility is built or the existing facility is modified.

- x. **ADDITIONAL INFORMATION THAT THE LICENSEE DEEMS USEFUL:**

Hamlet has started extended sampling and testing program. They submit annual report
