Den Elliott
District Manager
Indian & Northern Affairs
Box 100
Iqaluit, N.T.

Dear Mr. Elliott:

The new dump site has been an ongoing construction for the past three years. We are now planning to use the site commencing October 1, 1996 or shortly thereafter. There will be no mixing of water and waste oil at the dump site as waste oil will be contained in drums and burned off from them. The sealift container will be in place in October, 1996.

I hope the above answers your questions regarding the Water Licence application.

Sincerely yours,

Rhoda Katsak
Assistant Administrative Officer

C.C. Rick Armstrong
M.A.C. Iqaluit.
