Good morning Timoon,

Thank you for providing this document.

Please also provide a copy signed by the author and include in it the expected dates of when this work will be undertaken and a deadline for completion.

Once again, please ensure that the Municipality proceeds as required with the decant of the lagoon. Also, Please ensure that the samples collected during the decant include the following parameters;

BOD pH Total Suspended Solids Faecal Coliforms Nitrate-Nitrite Total Phenols Sodium
Magnesium Total Arsenic Total Copper Total Iron
Total Mercury Total Zinc Conductivity Ammonia Nitrogen Oil and Grease (visual) Sulphate
Potassium Calcium Total Cadmium
Total Chromium Total Lead Total Nickel

These samples should be collected at the beginning, middle and end of the discharge. This corresponds with what is required under the license.

Also, Please ensure that a spill report is filed as per the license.

PART B: GENERAL CONDITIONS

6. The Licensee shall immediately report to the 24-Hour Spill Report Line (867-920-8 130) any spills of Waste, which are reported to or observed by the Licensee, within the municipal boundaries or in the areas of the Water Supply or Waste Disposal Facilities.

and

PART F: CONDITIONS APPLYING TO OPERATION AND MAINTENANCE

4. If, during the period of this Licence, an unauthorized discharge of waste occurs, or if such a discharge is foreseeable, the Licensee shall:

- I. employ the appropriate contingency plan as provided for in the Operation and Maintenance Plan;
- II. report the incident immediately via the 24-Hour Spill Reporting Line at (867) 9208130 and to an Inspector; and
- III. submit to an Inspector a detailed report on each occurrence not later than thirty (30) days after initially reporting the event.

Once again, thank you for your time and attention. Assuming that the Nunavut Water Board will want to review your proposed plans and make a determination on whether or not this constitutes a modification or change to the Operations of the facility (sludge management) , please ensure that they are cc'd on all future correspondence.

Andrew and Earle:

Please find the action plan for the Pond Inlet sewage lagoon. We don't have emergency, we just need to decant the PI sewage lagoon. According to Bhabesh Roy they are going start decanting today and the decanting of this particular lagoon is going to take about two to three weeks.

Thanks

Timoon
