NOTES/COMMENTS:

Hi, Phyllis:

The contractors upgrading our sewage lagoon have stated that the hazardous materials container (cargo container, sea container, etc.) which is located approximately 20 metres from the lagoon has to be moved to another location as it will interfere with the construction of the lagoon.

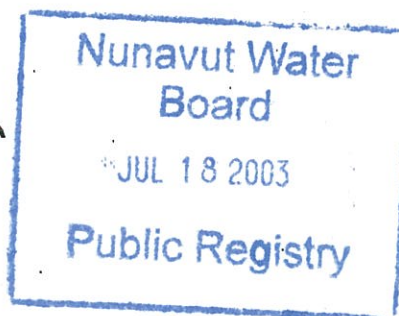

They are not sure when they will need it moved, it could be from tomorrow to next week, but they need it moved by next week firm. They would ask for this on a Friday.

Sorry I didn't call first, will call you by 2:30 your time to confirm message reception, if you don't call first.

Thank you very much for your time and attention to this matter.

Sincerely,

Morgan Arnakallak
