RE: As Built Drawings and OM Manual – Sewage Treatment Lagoon

Dear Mr. Anaviapik:

The Nunavut Water Board is in receipt of an Operations and Maintenance Manual and As-Built Drawings for the Sewage Treatment Lagoon in Pond Inlet. The As-Built drawings are of a size that we are unable to copy and provide to regulators for review. Please forward these drawings in electronic format or provide the Nunavut Water Board with permission to contact Dillon Consulting direct and get copies from them.

Regards,

Original signed by:

Phyllis Beaulieu
Manager of Licensing
Nunavut Water Board
