Mr. Filiatrault:

The reservoir will soon be too shallow for use and we will have to switch to our backup water supply. We will be taking a sample for analysis of Salmon Creek this afternoon, results back 7-10 days.

I also need to know where the surveillance sites of which sewage lagoon that I will be taking samples of are, in writing, please.

Thank you very much for your time and attention, call for questions or comments.

 Morgan Arnakallak
 W/S Clerk
