**Sub: Qikiqtarjuaq Water License application**

Dear Mr. Murdock

I am writing to you in response to your letter dated October 19, 2006, regarding the Municipality of Qikiqtarjuaq's Water License renewal application as per Section 48 item 2 of Nunavut Waters and Nunavut Surface Tribunal Act (NWNSTA).

Attached are the following documents, which we believe will satisfy the necessary criteria of Section 48 item 2 of NWNSTA:

1. Answer to the Questions of NWB dated October 19, 2006.
  - a. Water Use and Understanding of Waste
  - b. Geotechnical Issues
2. Short Technical Summary Report of the project
3. Revised set of Drawings
4. Revised Design Report
5. Geotechnical Investigation- Sieve Analysis, Seepage analysis and Geothermal modeling
6. Environmental report of using Industrial waste into Lagoon
7. Revised Sewage Treatment Facility Operation and Maintenance Plan
8. Community plan
9. Authorization letter from the Municipality

It is noted that Nuna Burnside Engineering and Environmental Ltd is the consultant of the Environmental projects for the Municipality of Qikiqtarjuaq. They prepared all the attached documents to assist CGS, GN in obtaining a Water License for the Municipality. The present Water License for the Municipality expired on December 31, 2006.

I trust the information included with the application meets your requirements for the renewal of the Municipality's existing Water License. If you have any questions, please do not hesitate to contact me. I would appreciate if you could keep me informed about the progress of the Water License approval process.

Thanks.

**Bhabesh Roy, M.A.Sc., P.Eng.**
