REMARKS: ☐ Urgent ☐ For your review ☒ Reply ASAP ☐ Please comment

In follow up to you recent visit here and instruction NOT to release the sewage lagoon contents.

Your advise is requested. The sewage lagoon is nearing 2 meters from breaching and is encroaching the free board marg Nunatta Environmental has obtained a sample of the lagoon surface.

The chemical engineer on site has advised there should be no issues with release, however a sample will provide adequate proof.

Until you advise staff have been istructed not to release the contents of the sewage lagoon.

Please advise when we can release the effluent.

Nunatta Environmental Services is on site this week and staying at the Tulugak Hotel
