July 26, 2000

Dear Dionne,

This letter is to advise you the Municipality of Qikiqtarjuaq intends to modify its existing water reservoir by installing a 10" diameter, 40-ft drainage pipe. This is meant to facilitate the drainage and cleaning of the reservoir on an annual basis. The existing drainpipe does not empty out the reservoir in order to allow a proper cleaning. It is anticipated this project will take two years to complete due to restrictions from the permafrost. Please advise if you require any further information or details.

Sincerely,

Don Pickle  
 Senior Administrative Officer
