A Report date and time Feb 17/02	B Date and time of spill (if known) Feb 16/02 6pm	C Original report Update no. 02-124	1042
D Location and map coordinate (as of mapping and direction of mapping) TANK FARM - Tank #5 during transfer.			
E Party responsible for spill LEEIE Enterprises Ltd.			
F Product(s) spilled and estimate quantities (provide metric volumes/weights if possible) Jet A-1 Turbo - 750 Litres approx.			
G Cause of spill Extreme cold made it difficult to close valve. Value extremely difficult to open/close - needed pipe - FROZEN TIGHT.			
H Is spill continuing? Give estimated rate No	I Is further spillage possible? No	K Status of containment area (in future releases if possible) Spill contained in low area & is now cleaned up.	
L Factors affecting spill or recovery (weather conditions, terrain, size cover, etc.) WEATHER affected recovery time.		M Containment (natural depression, dikes, etc.) Spill contained in low area & is now cleaned up.	
N Action, if any, taken or proposed to contain, remove, clean up or dispose of products and contaminated materials CLOSED VALVE AS QUICKLY AS POSSIBLE. Pumped spill into barrels & sponged and contained sporgys in metal barrels			
O Do you require assistance? Yes	P Possible hazards to persons, property, or environment (e.g. fire, flooding, water, etc.) None		
Q Comments and/or recommendations Took 3-4 minutes to manually close valve - extremely cold (-45°). Prior to spill, valve was cleaned - thick frozen grease removed - , but still very tight at time of value closure. Had to turn valve with pipe to open - At time of recovery manual closure took more time than expected or anticipated - removal of thick grease seemed to have no effect.
