Technical Advisor

Dear Ms. Filiatrault:

RE: BROUGHTON ISLAND - AMENDMENT TO SURVEILLANCE NETWORK PROGRAM

I would like to draw your attention to an error in the Surveillance Network Program (SNP) for the Broughton Island municipal water licence. The error was reported to this office by Mr. Paul Smith, Water Resources Officer for the Nunavut District.

Part B, Item 1 of the SNP requires the collection of samples at Station Number 0640-4. This station is described as run-off below the abandoned sewage disposal area. Since there is no flow at this station there is no need to continue monitoring at this location. Part B, Item 1 should indicate that sampling is to take place at Station Number 0640-6 described as run-off from the Sewage Disposal Facilities.

Should you require further information, please contact me at 669-2657 or Mr. Paul Smith at (819) 979-4405.

Yours truly,

Brian Collins
